## Use of Digital and Video Images

The use of digital and video images plays an important part in learning activities. Pupils and members of staff may use digital devices to record evidence of activities in lessons and out of school. These images may then be used in presentations in subsequent lessons.

Images may also be used to celebrate success through their publication in newsletters, on the school website and occasionally in the public media. We will ensure that, when images are published, pupils cannot be identified by the use of their names.

In accordance with guidance from the Information Commissioner’s Office, parents and carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published or made publicly available on social networking sites, nor should parents or carers comment on any activities involving other pupils in the digital or video images.

Permission can be withdrawn at any time by contacting the school office.
