

Professional Learning Grant- statement

The Professional Learning Grant is a new grant from Welsh Government to help schools to prepare for the new curriculum.

For 2019-2020, the grant for our school is £8110.00

This money will be spent on the following:

1. Dedicated learning and research time in new curriculum teams.
2. Visits to pioneer or high performing schools to observe how the four purposes are being developed as the core of our provision in Llanidloes CP School.
3. Enabling teaching assistants to join in with whole staff meetings each half term to ensure that all staff have the opportunity to develop understanding and knowledge together.
